

ThermoGlo™

Model MM1 Series Heat Station

Item No: _____

AIA FILE NO. / SPEC NO.

CONSULTANT/ CONTRACTOR APPROVAL

Model MM1

The Marshall **Model MM1 Series** features our ThermoGlo™ heating technology. Heat radiates from every square inch of the upper flat plate surface. This eliminates the need to clean intricate calrod, wire and reflector assemblies. An accessory 120 V receptacle at the back is ideal for powering a timer. This receptacle is furnished only on **Model MM1**. The **Model MM1C** is equipped with an infinite switch to control the temperature. **Model MM1E** is the high-intensity heat version, while the **Model MM1D** is the half-size version.

In addition to french fries, this holding unit can be used for a variety of other fried foods such as wings, chicken, hush puppies, onion rings and more.

All Marshall products are supported by a nationwide service organization and in-house, full-time Customer Support Department. To place an order call:

1-800-627-8368

Marshall's most popular french fry holding unit features ThermoGlo™ technology. This unit can also be used for holding and warming a wide variety of foods.

FEATURES

- Even heat eliminates hot and cold spots
- Holds full size 12" x 20" steam table pan (not included.) MM1D holds ½ size pan (not included.)
- Flat surface allows for easy wipe-clean maintenance
- Food stays "presentation ready" longer because exact internal temperatures can be reached faster and maintained longer

CONSTRUCTION

- Heavy gauge stainless steel
- Designed and built to custom specifications with heat radiating from the ThermoGlo™ surface
- Designed with a flat unbreakable radiating metal face encased in stainless steel housing

**ETL (US & Canada) & NSF Listed
FOR COMMERCIAL USE ONLY**
