Model HST13 and HST13(S)

High Speed Vertical Contact Toaster

Item No: _____

AIA FILE NO. / SPEC NO.

CONSULTANT/ CONTRACTOR APPROVAL

Model HST13

The Marshall **Model HST13** High Speed Vertical Toaster produces 160°F caramelized buns in 10 seconds without chain or bar marks on the crust side. This compact model is so fast it can produce 2500 4" hot buns in one hour with less than 2% moisture loss, perfect for building sandwiches to customer orders. Buns are loaded at the top and released onto a product slide at the bottom. The variable speed drive ranges from 8 to 60 seconds or a single speed is available factory preset. Heat controls are preset or adjustable as required. Adjustable controls for various crown/heel thicknesses and speed are located inside the secure, side panel cabinet thus eliminating unauthorized tampering. The flexibility of this toaster delivers the hottest buns in the shortest time.

All Marshall products are supported by a nationwide service organization and in-house, full-time Customer Support Department. To place an order call:
