Model 145486 Series

## Cooked Fry Station Table

Item No: \_\_\_\_\_

AIA FILE NO./ SPEC NO.

CONSULTANT/ CONTRACTOR APPROVAL

Model 145486

The Marshall **Model 145486** Series Cooked Fry Station Table features our ThermoGlo™ heating technology. Heat radiates from every square inch of the upper flat plate heating surface. This eliminates the need to clean intricate cal-rod, wire and reflector assemblies. French fries, onion rings, hush puppies and more are ideal food products for this technology.

All Marshall products are supported by a nationwide service organization and in-house, full-time Customer Support Department. To place an order call:

**1-800-627-8368**

Marshall's Cooked Fry Station Table incorporates ThermoGlo™ technology designed to solve demanding warming and holding temperature requirements.

### FEATURES

- Delivers a wide range of temperature capabilities to fill exact warming and holding requirements
- Flat surface allows for easy wipe-clean maintenance
- Food stays “presentation ready” longer because exact internal temperatures can be reached faster and maintained longer
- Brackets provided to ease mounting of cup holders, box dispensers or other such devices
- Illumination provided by four food-grade incandescent bulbs

### CONSTRUCTION

- Heavy gauge stainless steel
- Designed and built to custom specifications with heat radiating from the ThermoGlo™ surface
- Designed with a flat unbreakable radiating metal face encased in stainless steel housing

**ETL (US, Canada) & NSF Listed-Custom Overshelf  
FOR COMMERCIAL USE ONLY**
