Fried Food Dump Station

Item No: _____

AIA FILE NO. / SPEC NO.

CONSULTANT / CONTRACTOR APPROVAL

Model CZ3K-2ACCT

The Marshall **Model CZ3K series** fried food drop-in cabinet holds a variety of fried foods in a low profile design. A digital control provides the ability to set the temperature for products such as chicken tenders, fries, fried veggies, LTOs, and many other fried items! Our unique combination of contact, convection, and radiant heat holds products longer with up to 40% less energy. Our gentle air flow keeps the outside crispy without drying out the inside, resulting in longer hold times. Available in drop-in or countertop configurations.

Model CZ3K series ThermoGlo™ flat heating surfaces transmit heat more efficiently, which results in longer product hold times.

All Marshall products are supported by a nationwide service organization and in-house, full-time Customer Support Department. To place an order call:

1-800-627-8368

Marshall's drop-in warmer incorporates ThermoGlo™ technology and air circulation designed to heat fried foods to improve the customer experience. Three sizes are available.

FEATURES

- Digital controls regulate heat for perfect product holding
- Delivers a wide range of temperature capabilities to fill exact warming and holding requirements
- Flat surface and welded bin allow for easy wipe-clean maintenance
- Food stays “presentation ready” longer because exact internal temperatures can be reached faster and maintained longer
- 40% less energy
- Low airflow reduces the heat in the space

CONSTRUCTION

- Heavy gauge stainless steel
- Heaters designed with a flat unbreakable radiating metal face encased in stainless steel housing
- Each dump station is provided with a removable dump pan and dividers

**ETL (US, Canada) & NSF Listed
FOR COMMERCIAL USE ONLY**
