

ThermoGlo™

Models CB1 & CB2 Transfer Cabinets

Item No: _____

AIA FILE NO. / SPEC NO.

CONSULTANT / CONTRACTOR APPROVAL

Model CB1

The Marshall **Models CB1 and CB2** Transfer Cabinets feature our ThermoGlo™ technology. Heat radiates from every square inch of the upper and lower flat plate heating surfaces. This eliminates the need to clean intricate calrod, wire and reflector assemblies. An integrated temperature/timer control maintains consistent product temperatures on both top and bottom of each tier, allowing you to select different settings for each tier. A four-channel timer allows you to track holding of up to four products. Timer can be “linked” to track product rotation or independent to track individual products.

Models CB1 and CB2 ThermoGlo™ flat heating surfaces transmit heat more efficiently and resulting in longer product hold times. Units can be optimized for sandwiches, biscuits and several other food products. Adjustable dividers allow a variety of products to be heated simultaneously.

All Marshall products are supported by a nationwide service organization and in-house, full-time Customer Support Department. To place an order call:

Marshall's Transfer Cabinet incorporates ThermoGlo™ technology designed to hold sandwiches, biscuits and other wrapped or boxed foods while maintaining temperature requirements.

FEATURES

- Microprocessor controls exact heat intensity to furnish a specific temperature for top and bottom of each tier
- Delivers a wide range of temperature capabilities to fill exact warming and holding requirements
- Flat surface allows for easy wipe-clean maintenance
- Food stays “presentation ready” longer because exact internal temperatures can be reached faster and maintained longer
- Illumination is provided by two food-grade fluorescent lights
- Four-channel timer

CONSTRUCTION

- Heavy gauge stainless steel
- Designed and built to custom specifications with heat radiating from the ThermoGlo™ surfaces
- Heaters designed with a flat unbreakable radiating metal face encased in stainless steel housing

**ETL (US, Canada) & NSF Listed
FOR COMMERCIAL USE ONLY**
