

Autotoast™

Model FR66T, FR14T

Artisan Bread High Speed Radiant Toaster

Item No: _____
AIA FILE NO./ SPEC NO.
CONSULTANT/ CONTRACTOR APPROVAL

Model FR14T

The Marshall Artisan Bread High Speed Radiant Toaster produces bread products hot and fast for building sandwiches to customer orders. Bread products are loaded into the chamber and released onto a product slide. The Model FR14T has a single 14" belt with a variable speed drive. The Model FR66T has two 6" belts with independent variable speed drives. For both models, the minimum toast time is twenty seconds and the maximum toast time is two minutes and forty seconds. Two temperature controls allow the user to easily adjust top and bottom heat independently for maximum flexibility and results. The unit is also designed to easily change the heating power of each zone by adding or removing elements if needed.

All Marshall products are supported by a nationwide service organization and in-house, full-time Customer Support Department. To place an order call:

1-800-627-8368

Marshall's Artisan Bread High Speed Radiant Toaster is designed specifically for QSR, fast casual restaurants, sandwich shops, cafeterias, snack bars and convenience stores using dry or pre-buttered bread products.
