

ThermoGlo™

Model RR5 Series Fried Foods Dump Station

Item No: _____

AIA FILE NO. / SPEC NO.

CONSULTANT/ CONTRACTOR APPROVAL

Model RR5

Marshall's Fried Food Dump Station incorporates ThermoGlo™ technology and can be used for holding and warming a variety of food products.

FEATURES

- Even heat eliminates hot & cold spots
- Flat surface allows for easy wipe-clean application
- Food stays “presentation ready” longer because exact internal temperatures can be reached faster and maintained longer
- Optional bagged product holding area available

The Marshall **Model RR5 Series** Fried Food Dump Station features ThermoGlo™ technology which heats every square inch of the upper flat plate surface. The need to clean intricate Calrod, wire and reflector assemblies is eliminated. This unit comes equipped with a slotted bottom pan along with a pullout catch drawer for food preparation. An optional bagged product holding area is also available.

All Marshall products are supported by a nationwide service organization and in-house, full-time Customer Support Department. To place an order call:

1-800-627-8368

CONSTRUCTION

- Heavy gauge stainless steel
- Designed and built to custom specifications with heat radiating from the ThermoGlo™ surface
- Designed with a flat unbreakable radiating metal face encased in stainless steel housing

ETL (US, Canada) & NSF Listed FOR COMMERCIAL USE ONLY
